How to: Connect to a Windows PC using Microsoft Remote Desktop for Mac

Details

🔗 NOTE: Before attempting to connect to the remote computer, please ensure you have completed the following:

- Configure the remote Windows computer to accept incoming connections
- Installed Microsoft Remote Desktop on your Mac and set up a connection profile

1) Open Microsoft Remote Desktop from your Applications folder, Dock, or Launch Pad.

2) Double-click on the remote desktop connection that you wish to use.
OUTCOME

Your Mac will attempt to connect to the remote computer. When the connection is successful, you will see the remote desktop.
