How to: Delete stored items in Keychain Access on your Mac

Notice

No one at Texas Tech University or from anywhere else should ask for your password.

Solution

In Keychain Access, right-click the item you wish to delete and click Delete, then click Delete to confirm.

Details

1) Open Keychain Access by going to "Spotlight" (the magnifying glass) and searching for Keychain Access.

2) The list of stored credentials will be shown. If Keychain Access is locked, click on the lock icon in the upper left-hand corner and use the appropriate username and password to unlock it.

3) Locate the item you wish to delete. Then, right-click the item, and click Delete.
4) Click **Delete**.

**OUTCOME**

The stored item has been deleted in Keychain Access.
