How to: Connect to the TTUguest wireless network on your Android 7.0 Nougat

Solution

Open the Settings app, and tap Wi-Fi. Switch Wi-Fi on and tap TTUguest. Enter the password provided to you and tap Connect.

Details

1) Open the Settings app.

2) Tap Wi-Fi.
3) Tap the Wi-Fi switch to on and choose TTUGuest.
4) In the Password field, type the **Pre-Shared Key (PSK)** that was provided by the TTU faculty or staff member. Then, tap **Connect**.
OUTCOME

The computer will establish a connection to the TTUguest network. When it has done so, your Wi-Fi icon will indicate your signal strength. If no signal strength is present, repeat the previous steps. If repeating this process does not help, try relocating within the area.
