How to: Remove a wireless network in iOS

Solution

In the Settings app, tap Wi-Fi and make sure that Wi-Fi is enabled. Tap the blue information circle next to the network you wish to forget, and then tap Forget this Network. Tap Forget to confirm.

Details

1) Open the Settings app.

2) Tap Wi-Fi.
3) Make sure that the switch next to Wi-Fi is turned on.
4) Next to the network you wish to remove, tap the blue information circle.
5) Tap **Forget this Network**.
6) Tap **Forget** to confirm.

**CAUTION:** This cannot be undone.
OUTCOME

The iOS device will no longer attempt to connect to the wireless network that you removed.
