How to: Connect to TTUnet Wi-Fi using Android 5.0

Solution Title

How to: Connect to TTUnet Wi-Fi using Android 5.0

Solution

Navigate to **Settings > Wi-Fi > TTUnet**. Type in your eRaider credentials, and then tap **Connect**.

Details

---

**NOTE:** Android is highly customized and may look different depending on your manufacturer. You may see differences when following these steps.

1) Open your **Settings** application.

![Settings application on Android device]

2) Under the "Connections" tab, tap **Wi-Fi**.
3) Tap **TTUnet**.
4) Type in your eRaider username and password into the "Identity" and "Password" fields respectively, then tap **Connect**.

---

**OUTCOME**

Your device is now connected to the TTUnet wireless network.
