How to: Reset/clear the stored password for TTUnet Wi-Fi on Windows 10

Notice

No one at Texas Tech University or from anywhere else should ask for your password.

Solution

Open Network and Sharing Center > Wireless Network Connection (TTUnet) > Wireless Properties. Uncheck the box labeled "Remember my credentials for this connection each time I'm logged on" and click OK.

Details

1) Right-click the network icon located at the bottom right-hand corner of your screen.

2) Click Open Network and Sharing Center.

3) Click Wireless Network Connection (TTUnet).

4) Click Wireless Properties.
5) Under the **Security** tab, uncheck the box labeled "Remember my credentials for this connection each time I'm logged on". Then, click **OK**.
NOTE: Your computer will be disconnected from TTUnet Wi-Fi. Please see How to: Connect to TTUnet wireless in Windows 10 in order to re-connect to TTUnet. Also, if you would like TTUnet to remember your credentials after you have cleared/reset them, please proceed to Step 6. Otherwise, see the "OUTCOME" section of this solution.

6) Ensure you are connected to TTUnet again and repeat Steps 3-5 from above. Once you are at the Security tab, check the box "Remember my credentials for this connection each time I'm logged on". Then, click OK.

![Security tab settings](image)

NOTE: Your computer will be disconnected from TTUnet once again.

OUTCOME

You have now cleared/reset your saved credentials for the TTUnet Wi-Fi.
