How to: Set up TechMail in Mail, Calendar, Contacts, Reminders, and Notes on your Mac

Solution

Open System Preferences > Internet Accounts. Click Exchange. Enter your eRaider credentials, and select the apps you’d like to sync.

Details

1) Open System Preferences.

2) Click Internet Accounts.
3) Click **Exchange**.
4) Type your name and TechMail address in to the spaces provided then click **Sign In**.

5) On the drop down that appers click the **Sign In** option.
6) Sign in using your eRaider credentials.

7) Choose the items you wish to sync, and then click Done.

OUTCOME

Your TechMail account has been added to your macOS device.
