How to: Connect to TTUnet Wi-Fi using Android 5.0

Solution

Navigate to Settings > Wi-Fi > TTUnet. Type in your eRaider credentials, and then tap Connect.

Details

NOTE: Android is highly customized and may look different depending on your manufacturer. You may see differences when following these steps.

1) Open your Settings application.

2) Under the "Connections" tab, tap Wi-Fi.
3) Tap **TTUnet**.
4) Type in your eRaider username and password into the "Identity" and "Password" fields respectively, then tap Connect.
