How to: Connect to TTUnet Wi-Fi in iOS

Solution

Tap **Settings** > **Wi-Fi**. Tap **TTUnet**. Type in your eRaider credentials and tap **Join**.

Details

1) Open the **Settings** application.

2) Tap **Wi-Fi**.
3) Ensure that Wi-Fi is set to the "on" position, and then tap TTUnet.

4) Type the following information, and then tap Join.

- **Username**: ttu\your_eRaider_username (e.g. ttu\jdoe) or your TechMail address (e.g. jane.doe@ttu.edu)
- **Password**: your eRaider password
Your iPhone or iPad will be connected to the TTUnet wireless network. Once you are connected, you will see the Wi-Fi icon appear in the status bar at the top, and a check mark will appear next to TTUnet in your Wi-Fi screen.

NOTE: The next time you change your eRaider password, since it is not possible to update the saved password on your iOS device, you must go back into your device's Wi-Fi settings and remove TTUnet. Then, set up your device again using the instructions above. Failure to perform these steps may result in account lockouts.
