How to: Connect to TTUnet wireless on your Mac

Solution

In your Mac's menu bar, click the Wi-Fi icon and choose TTUnet. Type your eRaider credentials and click Join. If prompted to verify the TTUnet certificate, click Continue.

Details

1) Click the Wi-Fi icon and choose TTUnet.

2) Type your eRaider username and password, and then click Join.

趂 TIP: Your eRaider username and password will be saved in your login keychain. In order to avoid an account lockout, this information must be updated in Keychain Access each time you change your eRaider password.
3) If prompted to verify the certificate, click **Continue**.

4) If prompted for credentials, type a username and password with administrative rights on your Mac. Then, click **Update Settings**.

**OUTCOME**

Your computer will be connected to the TTUnet Wi-Fi network.
