General settings required for Remote Desktop Protocol (RDP) clients at TTU

Details

The following are the general settings required to connect to a remote computer using Remote Desktop Protocol (RDP) at TTU:

- **Connection name**: Any descriptive name you wish (e.g. *My work PC*)
- **PC name (Computer name)**: The full computer name of the remote PC to which you wish to connect (e.g. *somepc.ttu.edu*)
- **Gateway**: rdp.ttu.edu
- **Username**: ttu\your_eRaider_username
- **Password**: your_eRaider_password

⚠️ **TIP**: For assistance with finding the PC name, please see How to: Find the name of your computer in Windows 10.
