How to: Connect to the TTUguest wireless network on your Mac

Solution

Choose "TTUguest" from the list of Wi-Fi networks, and use the pre-shared key that was provided to you by the TTU faculty or staff member sponsoring your event.

Details

1) Click on the Wi-Fi icon, and choose TTUguest from the list of wireless networks.

2) When prompted for a password, type in the pre-shared key (PSK) that was provided to you by the TTU faculty or staff member sponsoring your event. Once this is done, click Join.

OUTCOME

The computer will establish a connection to the TTUguest network.
