

How to: Install software updates for macOS

Details

1) In your Mac's menu bar, click the Apple icon. Then, choose **System Preferences**.

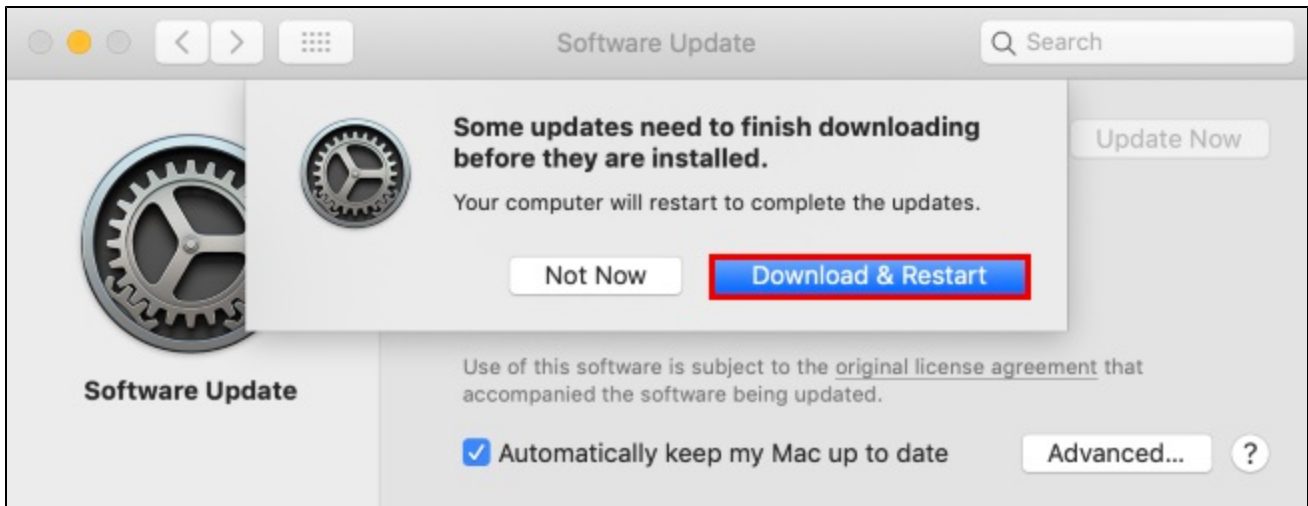

2) Click **Software Update**.

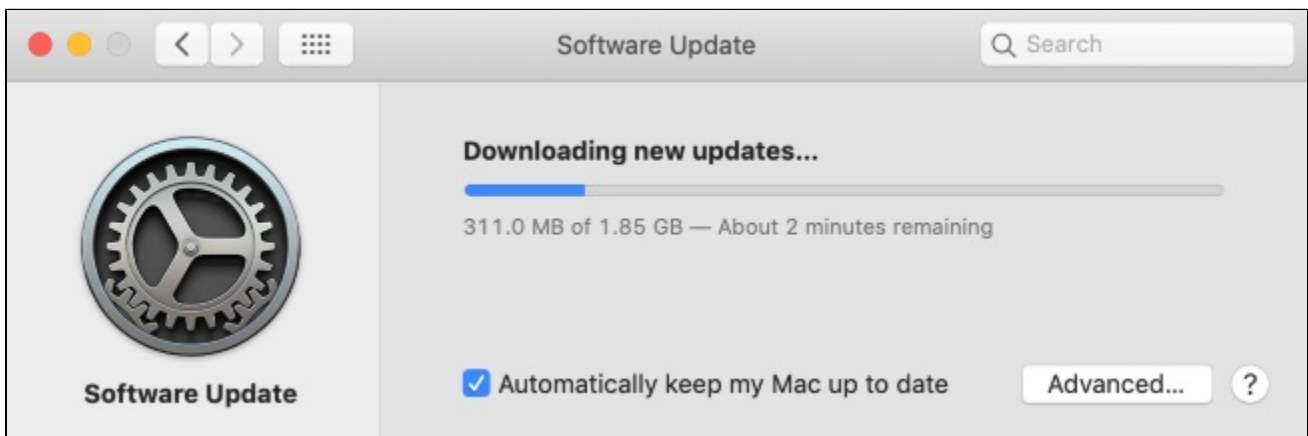

3) Click **Update Now**.

4) Click **Download & Restart**.

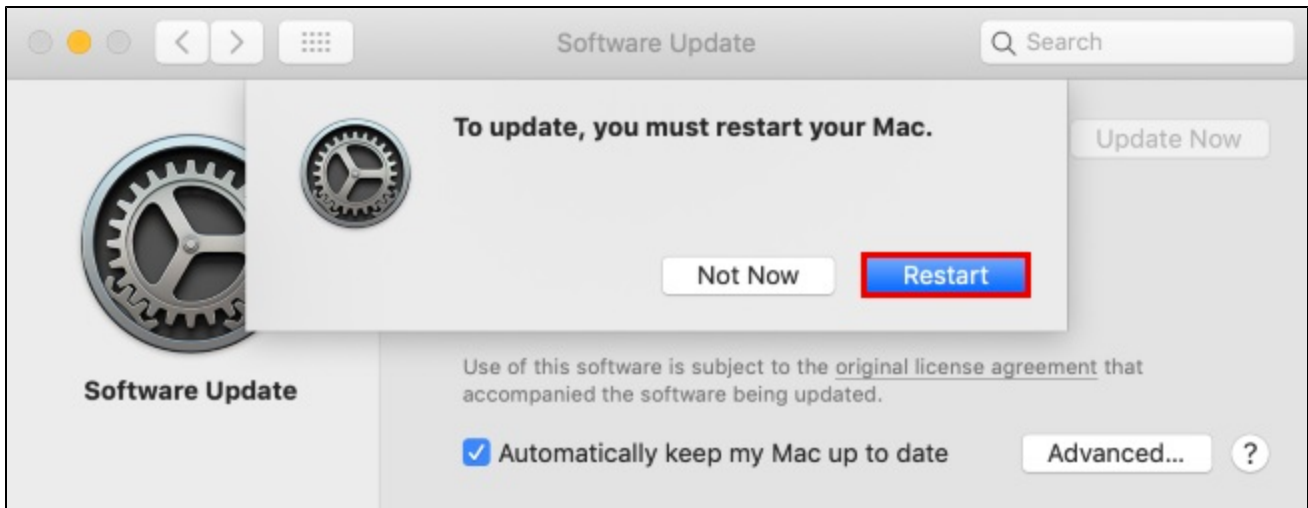

5) Wait for the software update to download.

6) After the software finishes downloading, click **Update Now**.

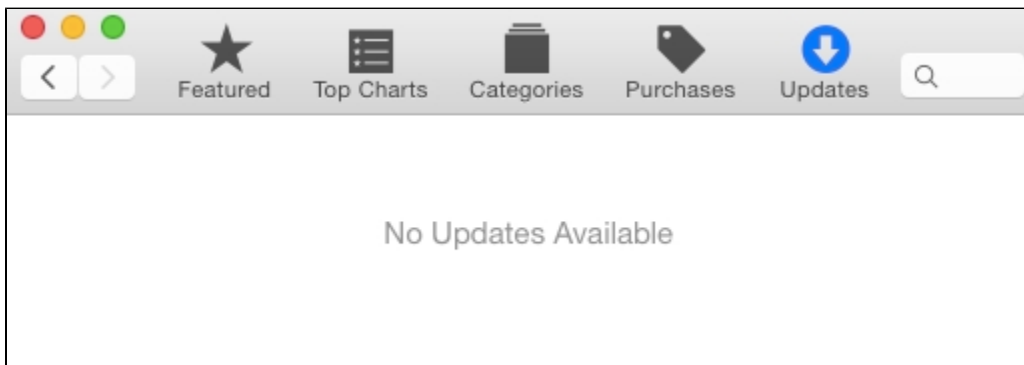

7) Click **Restart**.

OUTCOME

Continue repeating the steps above until you receive a message indicating that no updates are available.
