How to: Sign in to eRaider Account Manager or any other service which uses eRaider authentication

Details

1) Browse to the application that you wish to access.

EXAMPLE: To sign in to eRaider Account Manager, browse to https://eraider.ttu.edu.

2) If you are signing in to eRaider Account Manager, click Manage Your Account. Otherwise, skip to the next step.

3) For the username, type your official email address (e.g. john.doe@ttu.edu) or ttu\your_eRaider_username (e.g. ttu\jdoe). For the password, type your eRaider password. Then, click Sign in.

TIP: Some sites or services require may require that all of the letters in the username be in lower case.

TIP: If you are using the username format domain\username, ensure you are using a backslash, not a forwardslash, between the domain name and your username.

NOTE: The "ttu" and backslash in front of the username specifies that your account is on the TTU domain. Accounts on the TTUHSC domain will use the format ttuhsc\username.
If you are signed in to a domain authenticated computer with your eRaider credentials, the authentication could be passed through to your browser automatically. In this case, you will be signed in without having to enter credentials. This depends on the browser and its browser settings.

NOTE: If you are signed in to a domain authenticated computer with your eRaider credentials, the authentication could be passed through to your browser automatically. In this case, you will be signed in without having to enter credentials. This depends on the browser and its browser settings.

NOTE: In some instances, you may be presented with a sign-in window for https://fs.ttu.edu like the one seen below. You will still be able to sign in using your TechMail address or domain\username along with your eRaider password. Click OK or press Enter/Return when finished.
If the credentials you entered are rejected, try putting the username by itself (e.g. jdoe).

4) If you are signing in to a website that uses two-factor authentication, choose how you would like to verify your identity. Then, click Continue.
Verify Your Identity

Two-Factor Authentication is the best way to keep your account secure. It ensures you’re the only person who can access your account, even if someone knows your password. A code will be sent to your phone (either by SMS Or Voice) and you will enter that code in the provided box.

Please select how to receive your verification code.
The phone number is (***).***.1234

- Voice Call
- Text Message

Continue

You will receive a verification code by voice call or text message. Type in the verification code and click Verify.
Verify Your Identity
Enter the verification code to continue.

Didn't get a verification code?

You can save this browser so that eRaider Web Sign-In will remember you and not ask for a code again, by checking the "Register this browser" box below. If this is a public computer (in a lab or other computer regularly used by other people), please do not check the box so that the browser is not saved.

Register this browser: ☐

Verify

OUTCOME

You will be signed in to the desired Texas Tech University web app. This assumes that you have appropriate access to that service already.
