How to: Connect to a Windows PC using Microsoft Remote Desktop on your Android device

Details

NOTE: Before attempting to connect to the remote computer, please ensure you have completed the following:

- Configure the remote computer to accept incoming connections
- Set up a Remote Desktop Connection profile on your Android device

1) Tap on the RD Client app.

2) Tap the desired remote connection that you wish to use.
OUTCOME

Your Android device will attempt to connect to the remote computer.
If the connection is successful, you will see the remote desktop.
