How to: Connect to TTUguest wireless network in Windows 10

Solution

Click the network icon > TTUguest > Connect. Type the Pre-Shared Key (PSK) that was provided to you, then click Next.

Details

1) Click on the network icon located at the bottom right-hand corner of your screen.

2) Click TTUguest.

3) Click Connect.

4) When prompted, type the Pre-Shared Key (PSK) that was provided to you by the TTU faculty or staff member sponsoring your event. Then, click Next.
OUTCOME

Your computer is now connected to the TTUguest wireless network.
