How to: Connect to TTUnet Wi-Fi using Android 8.0 Oreo

Solution

Tap Settings > Network & Internet > Wi-Fi > TTUnet. Ensure "EAP method" is set to PEAP, "Phase 2 authentication" is set to MSCHAPV2. "Identity" is using your eRaider username, and "Password" is using your eRaider password. Then, tap Connect.

Details

NOTE: Android is highly customizable and may look different depending on your manufacturer. The steps below may vary for different devices.

1) Tap Settings.

2) Tap Network & Internet.
3) Tap Wi-Fi.
4) Ensure your Wi-Fi is turned on, then tap **TTUnet**.
5) Configure the following settings, then tap CONNECT.

- **EAP method**: PEAP
- **Phase 2 authentication**: MSCHAPV2
- **Identity**: your_eRaider_username
- **Password**: your_eRaider_password

**NOTE**: For "CA certificate," you may need to choose an option such as "Use system certificates" to allow connection to TTUnet. If you are required to enter a domain, type ttu.edu into the "Domain" section. If "Use system certificates" is not available, you will need to use "Don't Validate."
OUTCOME

Your device will be connected to the TTUnet wireless network.
