How to: Set up a new eRaider account

Notice

No one at Texas Tech University or from anywhere else should ask for your password.

Details

What you need before beginning

- An eRaider set-up code: If you do not have a set-up code, check your non-Texas Tech email account(s) for a message from erams@ttu.edu or from the Texas Tech staff member who manually authorized your account. (Try looking in your junk/spam folder if it is not in your inbox.)
  
- A phone number capable of receiving either SMS text messages or automated voice calls.

▲ TIP: If you could not locate a set-up code, it is possible that your account is already set up. Try following the forgot password process to try setting a new password. If that does not work, you may contact IT Help Central by telephone to obtain a set-up code.

Set up your account

1) Browse to https://eraider.ttu.edu and click Set-Up Account.

4) If your account was **manually authorized** by a staff member rather than automatically authorized by Banner/eRaider processes, you may need to manually specify your biographical information. If prompted for this information, type it carefully and click **Continue**.
5) The eRaider setup screen will ask for contact information which will only be used to help you reset the password in the future or to alert you of account activity. Specify a contact phone number and an alternate email address, and then click Continue.

NOTE: You must specify a contact phone number in order to proceed. If you do not have a non-TTU phone number, check this list of other options.
6) The eRaider system will send verification codes to the contact sources that you specified in the previous step. Check the phone you specified and your alternate email account to locate the code(s) sent to you. Type the code(s) into the appropriate fields on the eRaider setup screen and click **Continue**.
