How to: Connect to the TTUguest wireless on your iOS device

Solution

Open the **Settings** app, and tap **Wi-Fi**. After tapping on **TTUguest**, enter the password provided to you and tap **Join**.

Details

1) Open the **Settings** app.

2) Tap **Wi-Fi**.
3) Ensure that Wi-Fi is set to **On**, and then tap **TTUguest**.
4) In the Password field, type the Pre-Shared Key (PSK) that was provided to you by the TTU faculty or staff member sponsoring your event. Then, tap **Join**.

**OUTCOME**

Your iOS device is now connected to TTUguest wireless. Once you are connected, you will see the Wi-Fi icon appear in the status bar at the top, and a check mark will appear next to TTUguest in your Wi-Fi screen.
